**AMENDMENT AND PRESENTATION OF
REVISED SEQUENCE LISTING**

Commissioner for Patents
United States Patent and Trademark Office
Washington, D.C. 20231

Sir:

Submitted herewith is a revised sequence listing on diskette in ASCII code, a true copy thereof without page numbers, and a copy thereof with page numbers. The Notice from the Office indicated that the sequence listing submitted was acceptable for those sequences listed, but that it failed to list the sequence of Claim 6 and Figure 1 (identical).

The Sequence in claim 6 is a double stranded sequence. According to Mark Spencer of The United States Patent and Trademark Office, these sequences must be separately submitted. The lower sequence must also be reversed left to right as it must begin at the 5' end. Accordingly, the new sequence listing contains new sequences 7 and 8. The sequence has been checked with Checker Version 3.0 and the output verified to contain no errors.
